### THE EUROPEAN GREEN CAPITAL AWARD

Following Stockholm in 2010 and Hamburg in 2011, Vitoria-Gasteiz (Spain) and Nantes (France) will be The European Green Capitals for 2012 and 2013.

The award of European Green Capital is given each year to a European city that has made exceptional efforts to protect the environment and to achieve sustainable development. The judges' decision is based on eleven environmental criteria such as: local transport, green urban areas, quality of air, noise, waste production and management and water consumption.

Inhabitants of the city centre of Vitoria-Gasteiz do not live more than 300 metres away from a green space. The city has also made an enormous effort to reduce its water consumption, and aims to bring it down to less than 100 litres a day per person.

Nantes, the winner for 2013, has an ambitious transport policy. It was the first French town to reintroduce electric trams, and it now has a desirable air quality and expects to reduce CO2 emissions by a quarter by 2020.

Europe is now an essentially urban society, with four out of five Europeans living in towns and cities. Our well-being is closely linked to the quality of our urban environment. The aim of the Green Capital Award is to make winning cities models and inspire other European cities to improve the quality of life of their citizens.
